PROFESSIONAL SUMMARY

Software Engineering student at BINUS University building full-stack web applications. Frontend: HTML5, CSS3, JavaScript, and React. Backend: Node.js, Express, and Python (Flask) with RESTful APIs, JWT authentication, and PostgreSQL and MySQL databases. Seeking a web development internship across frontend, backend, or full-stack work.

EDUCATION

BINUS UNIVERSITY Bekasi, Indonesia
Bachelor of Computer Science, Software Engineering 2024 – Expected 2028

- Relevant Coursework: Software Design Patterns, Agile Development, Algorithm Design, Database Technology, Object-Oriented Programming, Human-Computer Interaction, Mobile Development, Software Quality Assurance

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, Python (Flask), REST API, JWT Authentication
Databases: PostgreSQL, MySQL, SQL
Programming Languages: JavaScript, Python, C, C++
Tools & DevOps: Git, GitHub, Docker, Docker Compose, Gunicorn, Netlify, Figma, VS Code
Machine Learning & Data: scikit-learn, pandas, NumPy, Jupyter Notebook, NLP, TF-IDF

PROJECTS

STAMP: HABIT TRACKER | React, Node.js, Express, PostgreSQL, JWT github.com/Rezzz000/Stamp-HabitTracker

- Built a full-stack habit tracker with a React frontend and a Node.js/Express REST API backed by PostgreSQL
- Implemented JWT-based authentication to secure user accounts
- Calculated habit streaks directly in SQL using the gaps-and-islands technique; built a 26-week activity heatmap and weekly trend views

FAKE NEWS DETECTION | Python, Flask, scikit-learn, Docker github.com/Rezzz000/FakeNewsDetection

- Collaborated in a team of 3 to build a machine learning web app and REST API that classifies news articles as real or fake using TF-IDF (10,000 features) and Logistic Regression
- Developed /predict and /health endpoints with Flask and Gunicorn, plus a browser-based interface for testing predictions
- Containerized the application with Docker and Docker Compose; the model trains automatically on container startup

ENVISION WEB | HTML, CSS, JavaScript github.com/Rezzz000/eNVision_web

- Built a front-end website for a fictional eyewear brand with a product catalog, rewards page, and service booking form with client-side validation
- Applied accessibility and usability principles from a Human-Computer Interaction course

PERSONAL PORTFOLIO WEBSITE | HTML, CSS, JavaScript, Netlify github.com/Rezzz000/PortfolioWebsite

- Designed and deployed a responsive portfolio with dark/light themes and smooth animations, showcasing projects, skills, and education

CERTIFICATIONS

Introduction to Cloud (CC0101EN), IBM / Cognitive Class October 2026

- Credential: courses.cognitiveclass.ai/certificates/dacb0c4c815e46998cabc40eeeaa4f1e

ADDITIONAL

Languages: Indonesian (Native), English (Professional Working Proficiency)
